ABOUT ME

Self-taught and self-motivated Front-end developer with unlimited creativity, innovation and passion for designing and developing web applications. Worked as a WordPress developer for a long time. With more than 4 years of experience in web development and almost 2 years in React.

EXPERIENCE

Almas | May 2022 – July 2022 (3 months)
TypeScript – React.js – Next.js – Redux – Graph QL – SASS - Framer Motion
In this project I've worked on Market-Place dashboard where sellers can add their products to the e-commerce platform.
I implement interactive UI features like Drag & Drop and image input for D3 images.

Freelance JavaScript Developer | Mar2021 – Apr 2022 (1 year 2 months)
HTML – CSS – JavaScript – TypeScript – React.js – Next.js – Redux – Graph QL – Apollo Client- Git – React Query
Worked on various projects in different concepts and scales and levelled up my skills.

WordPress Developer| Jan 2018 – Aug 2020 (2 year 8 months)
HTML – CSS - JavaScript
Build E-commerce websites with WordPress CMS and WooCommerce plugin.
I Worked closely with the WordPress core API, e.g., built-in hooks.

PROJECTS

Crypto Landing: Code | Live
React – TypeScript – SASS – framer motion – Chakra UI – REST API

Portfolio: Code | Live
React – Next.js – TypeScript –Styled Components – Framer Motion

Music web app: Code | Live
React.js – MUI – React Query – Styled Components
(I built this app based on Spotify redesign on Figma)
